PROFESSIONAL SUMMARY

Highly motivated and results-driven Backend Developer with 2+ years of hands-on experience designing and implementing robust RESTful APIs and scalable backend systems using Laravel and PHP. Specialized in database optimization, security best practices, and microservices architecture. Proven track record of improving API response times by 20% and handling 10,000+ requests per minute in production environments. Proficient in the complete Laravel ecosystem including Queues, WebSockets, Caching, and Event-Driven Architecture. Seeking a mid-level to senior backend role to contribute technical excellence to innovative, high-impact projects.

TECHNICAL SKILLS

Languages:PHP, JavaScript, SQL, Python (Basic), HTML/CSS
Frameworks: Laravel, Lumen, Express.js (Basic), Bootstrap
APIs & Protocols:RESTful APIs, Microservices, GraphQL (Basic), API Versioning, Swagger/OpenAPI, Postman
Databases: MySQL, PostgreSQL, Redis, Database Indexing, Query Optimization, Normalization
Auth & Security:JWT, OAuth 2.0, Laravel Sanctum, RSA/AES Cryptography, 2FA (TOTP & Email OTP), XSS/SQL Injection Prevention, Zero Trust Architecture
DevOps & Tools: Git/GitHub, Git Flow, CI/CD (GitHub Actions), Docker (Basic), PHPUnit, Pest Testing, TDD
Architecture:MVC, Repository Pattern, Service Layer, SOLID Principles, Design Patterns, System Design, Event-Driven Architecture
Other: WebSockets, Firebase, Queue Systems, Caching Strategies, Stripe Payment Integration, Real-Time Notifications

WORK EXPERIENCE

Backend Developer | Alafandi & Sbahi Company | Aleppo, Syria | September 2024 - Present

- Architected and developed scalable RESTful APIs for a high-traffic e-commerce platform serving 50,000+ monthly active users, improving API response times by 20% and handling 10,000+ requests per minute
- Designed and implemented a comprehensive Role-Based Access Control (RBAC) system with granular permissions, reducing unauthorized access incidents by 95%
- Built automated CI/CD pipelines using GitHub Actions, reducing deployment time by 60% and eliminating manual deployment errors
- Optimized database queries and implemented Redis caching strategies, reducing average query execution time from 450ms to 120ms
- Integrated multiple third-party payment gateways (Stripe, PayPal) and shipping providers, processing 5,000+ transactions monthly

Freelance Backend Developer | Self-Employed | Remote | January 2024 - August 2024

- Delivered 6+ custom web applications and APIs for clients across e-commerce, education, and healthcare sectors using Laravel and PHP
- Built a real-time notification system using Laravel WebSockets and Redis, successfully handling 2,000+ concurrent connections
- Implemented automated testing suites with PHPUnit, achieving 85% code coverage across all client projects
- Designed database schemas for applications handling 100,000+ records with optimized indexing and partitioning strategies

PROJECTS

PMA Website API | Laravel 12, PHP 8.2, MySQL, Redis, Firebase

- Developed a highly secure, modular RESTful API for a content management system with custom Zero Trust security layer using RSA/AES end-to-end encryption
- Implemented advanced Two-Factor Authentication supporting TOTP (Google Authenticator) and Email OTP with MITM attack prevention
- Designed scalable Feature-Driven Architecture with comprehensive Swagger/OpenAPI documentation

Ecommerce API | Laravel, PHP, MySQL, Redis, Stripe

- Built full-featured e-commerce API with secure Stripe payment processing, multi-currency support, and refund workflows
- Implemented inventory management with real-time stock tracking and Redis caching, reducing database load by 40%

EDUCATION

Bachelor of Science in Information Technology Engineering | Aleppo University, Faculty of Informatics Engineering | Graduated 2025

- Relevant Coursework: Database Management Systems, Software Engineering, Data Structures & Algorithms, Web Development, Computer Networks, OOP
- Graduation Project: Secure E-Commerce Platform with End-to-End Encryption (Grade: Excellent)

LANGUAGES

Arabic: Native proficiency
English:B2 Level - Professional working proficiency
